PROFESSIONAL SUMMARY

Frontend Developer with 6+ years building fast, scalable, SEO-optimized web applications with Next.js, React, TypeScript, and JavaScript. I turn design and product requirements into responsive, accessible interfaces, and I focus on measurable outcomes — faster load times, higher search visibility, and cleaner conversion funnels. Experienced working remotely with distributed teams across the UK, Canada, and Asia, and integrating analytics, payments, and third-party APIs into production products.

CORE TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Next.js

Frontend & UI: HTML5, CSS3, Tailwind CSS, Shadcn UI, Responsive Design, Web Accessibility (a11y), Cross-Browser Compatibility

APIs & Data: REST APIs, GraphQL

Performance, Analytics & SEO: Core Web Vitals, Technical SEO, Google Analytics (GA4), Google Tag Manager, Google Search Console

Payments & Integrations: Stripe, PayPal

Tools & Platforms: Git, GitHub, Vercel, CI/CD, Strapi CMS

Familiar With: Node.js, PHP (Laravel, CodeIgniter), MongoDB, MySQL

PROFESSIONAL EXPERIENCE

Frontend Developer — G&M Direct Hire, London (Remote) | Jan 2023 – Jun 2026

- Led frontend development of the company website and web platform using Next.js and React, serving 7,000+ monthly users.
- Improved performance and Core Web Vitals through SSR, code-splitting, and image optimization, delivering faster load times and stronger search visibility.
- Built and integrated secure Stripe and PayPal checkout flows for online payments.
- Implemented GA4, Google Tag Manager, and Search Console tracking to enable data-driven product and marketing decisions.
- Established a reusable component library and coding standards to speed up feature delivery and maintain UI consistency.

Frontend Developer (Contract) — TutiaTech ICT Co. Ltd, Afghanistan (Remote) | Oct 2025 – Mar 2026

Short-term contract worked alongside my primary role.

- Delivered frontend features for internal and client projects under tight deadlines.
- Improved UI performance and optimized existing interfaces.
- Collaborated with a distributed team to ship short-term deliverables on schedule.

Frontend Developer — TheCodeGiant, New Westminster, BC, Canada (Remote) | Apr 2021 – Feb 2023

- Built a responsive, large-scale web application using Next.js and Tailwind CSS.
- Translated UI/UX designs into reusable, accessible components.
- Integrated REST and GraphQL APIs and optimized rendering for faster data loading.
- Streamlined deployments using Vercel and CI/CD pipelines.

Frontend Developer — TutiaTech ICT Co. Ltd, Afghanistan (On-site) | Jan 2019 – Apr 2021

- Developed dashboards and responsive interfaces with Bootstrap and JavaScript across 10+ internal systems.
- Improved UI consistency and usability across multiple products.
- Built REST API integrations connecting dashboards to backend services.

Web Development Intern — TutiaTech ICT Co. Ltd, Afghanistan | Feb 2018 – Dec 2018

- Built responsive layouts and UI components with HTML, CSS, JavaScript, and jQuery.
- Contributed to 2 client projects and gained hands-on exposure to backend systems and databases.
