PROFESSIONAL SUMMARY

Full Stack Developer with 6+ years building fast, SEO-optimized web applications with Next.js, React, and TypeScript, backed by Node.js, Prisma, and PostgreSQL. I turn design and product requirements into responsive, accessible interfaces, and I focus on measurable outcomes — faster load times, higher search visibility, and cleaner conversion funnels. I have shipped production platforms for clients in the UK, US, and Asia, working remotely with distributed teams across US, UK, Canadian, and Asian time zones and integrating analytics, payments, and third-party APIs.

CORE TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Next.js (App Router)

Frontend & UI: HTML5, CSS3, Tailwind CSS, Shadcn UI, Responsive Design, Web Accessibility (a11y), Cross-Browser Compatibility

Backend & APIs: Node.js, Prisma, PostgreSQL, REST APIs, GraphQL

Performance, Analytics & SEO: Core Web Vitals, Technical SEO, Google Analytics (GA4), Google Tag Manager, Google Search Console

Payments & Integrations: Stripe, PayPal

Tools & Platforms: Git, GitHub, Vercel, CI/CD, Strapi CMS

Familiar With: PHP (Laravel, CodeIgniter), MongoDB, MySQL

PROFESSIONAL EXPERIENCE

Frontend Developer — Ayda Tech, Kabul, Afghanistan (Remote) | Jan 2023 – Aug 2026

- Led frontend development of the company website and web platform using Next.js and React, serving 7,000+ monthly users.
- Improved performance and Core Web Vitals through SSR, code-splitting, and image optimization, delivering faster load times and stronger search visibility.
- Built and integrated secure Stripe and PayPal checkout flows for online payments.
- Implemented GA4, Google Tag Manager, and Search Console tracking to enable data-driven product and marketing decisions.
- Established a reusable component library and coding standards to speed up feature

delivery and maintain UI consistency.

Frontend Developer (Contract) — TutiaTech ICT Co. Ltd, Afghanistan (Remote) | Oct 2025 – Mar 2026

Short-term contract worked alongside my primary role.

- Delivered frontend features for internal and client projects under tight deadlines.
- Improved UI performance and optimized existing interfaces.
- Collaborated with a distributed team to ship short-term deliverables on schedule.

Frontend Developer — TheCodeGiant, New Westminster, BC, Canada (Remote) | Apr 2021 – Feb 2023

- Built a responsive, large-scale web application using Next.js and Tailwind CSS.
- Translated UI/UX designs into reusable, accessible components.
- Integrated REST and GraphQL APIs and optimized rendering for faster data loading.
- Streamlined deployments using Vercel and CI/CD pipelines.

Frontend Developer — TutiaTech ICT Co. Ltd, Afghanistan (On-site) | Jan 2019 – Apr 2021

- Developed dashboards and responsive interfaces with Bootstrap and JavaScript across 10+ internal systems.
- Improved UI consistency and usability across multiple products.
- Built REST API integrations connecting dashboards to backend services.

Web Development Intern — TutiaTech ICT Co. Ltd, Afghanistan | Feb 2018 – Dec 2018

- Built responsive layouts and UI components with HTML, CSS, JavaScript, and jQuery.
- Contributed to 2 client projects and gained hands-on exposure to backend systems and databases.

SELECTED PROJECTS

- [G&M Direct Hire](#) — UK recruitment and car-hire platform with 7,000+ monthly users. Led the frontend and owned the Stripe/PayPal checkout and GA4 analytics layer. (Next.js, TypeScript, Tailwind CSS)
- [ContentGetway](#) — In-content conversion engine for publishers with attribution tracking. Built the widget builder and analytics schema end to end. (Next.js, TypeScript, Prisma, PostgreSQL, REST APIs)
- [Bodewrk](#) — Mobile beauty and wellness marketplace in New York City. Led the component system and booking flows. (Next.js, TypeScript, Shadcn UI)
- [CS50x Afghanistan](#) — Enrollment site for Harvard's CS50x, optimized for slow connections. Built the marketing and enrollment pages. (Next.js, TypeScript, Tailwind CSS)
- [GM Rides](#) — Airport transfer booking with real-time flight tracking. Built the booking UI and integrations. (Next.js, TypeScript, Shadcn UI)

- [Salonspa Connection](#) — Beauty-industry brokerage site. Turned the brand into a reusable component set. (Next.js, TypeScript, Shadcn UI)
- [Novatelia](#) — B2B platform for enterprise fiber, networking and AI infrastructure. Built the marketing and RFQ pages. (React, TypeScript, Shadcn UI)
- [Tutia Tech](#) — Bilingual-ready company website for a software house, with shared UI primitives. (Next.js, TypeScript, Shadcn UI)
- [HPS Pros](#) — Heating, plumbing and gas services site built for local SEO. (Next.js, TypeScript, Tailwind CSS)

EDUCATION

B.Sc. in Computer Science — Herat University, Afghanistan | 2019

CERTIFICATIONS

- Google Tag Manager (GTM) — From Zero to Hero (Udemy)
- Advanced SEO & Technical SEO Training (Udemy)
- SEO for WordPress & Modern Websites (Udemy)
